Offering comprehensive support and guidance to assist parents in helping their college-bound students to excel academically. In-person, telephone and e-mail consultation sessions available on an hourly basis which can be customized to meet your family's individual needs and priorities.

Consulting Services

Consultation intended to provide information and assistance to parents of students entering the high school years and beyond including: curriculum planning, distance learning options, transcripts, graduation requirements, college entrance, and standardized testing is included.

- Individual coaching to earn college credits in high school with CLEP/DSST testing
- Comprehensive planning of high school courses to meet college admission requirements
- Detailed development of daily or weekly lesson plans and study schedules
- Navigating the credit transfer process
- College readiness evaluation and achievement
- College degree planning and options for both high school students and adults
- Accountability in following through on plans to meet your academic goals
- Transcript development and maintenance
- Guidance for maximizing PSEO options
- Researching online and distance education options for college

Debbie is a licensed teacher having earned her B.S. in Education from the U of M. She chose to home educate her five children who have all gone on to college, some earning as many as 3 years of college credits during their high school years. Debbie has taught various courses at local homeschool co-ops, tutored adults through the community Adult Basic Education Program and has led many successful student groups for those interested in earning Credit by Exam. Students working with her have earned over 250 college credits to date and still counting!

Debbie provides encouragement and gentle accountability. She is effective in working both with parents and directly with their students.

Tutoring Services

In-home tutoring available in Elk River/ Rogers/ Andover and neighboring suburbs for the purpose of remediation, enrichment, homework assistance, and test prep including:

- Math (through Algebra I)
- Standardized testing
- Study Skills
- Credit by Exam (CLEP/DSST)
